

## SUMMER JOBS FOR KIDS

Summer is the perfect season to build your kids' entrepreneurial muscles. Kids and adults alike can have fun coming up with ways to earn and save money this summer. Kids can research what's needed in their neighborhood, price out their services and come up with ways to promote their business. Here are a few ideas for kids to earn money.

**Pet care:** If your kids love and care for their own pets, why not consider launching a dog walking, dog washing or pet sitting service? As summer temperatures soar, pet owners may gladly pay someone else to walk or bathe their fur baby. And with summer family travel plans, your neighbors may be more willing to let their beloved pet stay with your family than in a kennel, or risk taking them on the plane.

**Lawn Care:** Beyond mowing lawns, mulching and tending to gardens, your child may also set up a watering service. It could be one less item on a neighbor's to-do list and reassuring to know they won't return from family vacation to find dead houseplants, flowers or gardens.

**Car washes:** It's a great way to have fun playing with the water while earning money. Parents will need to provide the supplies and help find a suitable location.

**Use your talents:** Kids who aren't the outdoor or labor intensive type, and are at least 13 years old, can set up shop on etsy.com and sell their artwork or crafts. Another option is to create their own YouTube channel that offers anything from gaming tips to online tutorial videos.

## NOTICE OF FEE CHANGE

In order to continue to offer services such as online banking, bill pay, mobile deposit, free checking, and surcharge free ATM's for free, we do have to charge for other services.

We will be increasing some of our fees. You can find these changes in the fee schedule attached to your monthly statement.

We want our members to know that our increase in our fees was a necessary step to continue to provide all of the services we offer for free.

Most of the fees that we have increased have stayed the same for the past 15 years. Unfortunately, during that time the costs for services that the credit union pays for have increased.

The fee increase will not impact all members, but only members who utilize services such as Overdraft Privilege or make loan payments by debit card.

We strive to keep our fees as low as possible in order to better serve our members and help them with their financial needs.
